ADULT CROQUETTES with FRESH BEEF and VEGETABLES

Complete pet food for cats

A complete feed, developed for adult cats that need a controlled diet. Made with the highest-quality beef, rich in high biological value proteins. Helps maintain healthy vision thanks to the Taurine and Vitamin A content. The MOS (mannan oligosaccharides) and FOS (fructooligosaccharides) act as regulators for intestinal bacterial microflora, while the presence of Yucca Schidigera reduces faecal odour. The Omega-3 and Omega-6 essential fatty acids help to keep the fur soft and shiny. Also contains vegetables that provide a source of natural fibres.

COMPOSITION: Cereals (rice 4%), meat and animal derivatives (fresh beef 4%), vegetables (4%), oils and fats (salmon oil 1%), fish and fish derivatives, derivatives of vegetable origin (yucca schidigera 0.1%, fructooligosaccharides-FOS-0.05%), minerals, yeasts (mannan oligosaccharides-MOS-0.05%).
