Complete dog food

Low cholesterol content - Hypo-allergenic

A complete and balanced food for adult dogs of all breeds that require highly digestible foods that do not cause intestinal problems. Also supplies high biological value proteins, like those found in lamb, and highly digestible carbohydrates, like those found in extruded rice. Contains FOS (fructooligosaccharides), which help regulate the intestinal flora, and Yucca Schidigera, which reduces faecal odour. It guarantees the optimal ratio between the fatty acids Omega-3 and Omega-6, for every younger skin.
