## CROQUETTES with FRESH MEAT CHICKEN and TURKEY

**Complete cat food**

**Very tasty, rich in Omega-3 and Omega-6.  
Strengthens natural defences, very appetising.**

Complete food, studied to tempt even cats with difficult to please tastes. Made with excellent quality chicken and turkey, meats rich in high biological value proteins and balanced in essential amino acids. Thanks to the high Taurine and Vitamin A content, it helps maintain your cat's visual acuity. The low magnesium content and a neutral pH help prevent kidney stones from forming. The MOS (mannan oligosaccharides) and the FOS (fructooligosaccharides) help regulate the intestinal flora, while the presence of Yucca Schidigera reduces faecal odour. The optimal ratio between the fatty acids Omega-3 and Omega-6, essential fatty acids that influence inflammation, also ensures valid support for preventing allergic reactions. It also contains extruded cereals, which provide highly digestible carbohydrates. The correct calcium/phosphorus ratio guarantees harmonious skeletal and dental development.

**COMPOSITION** - Cereals, meat and meat derivatives (fresh chicken meat min. 5%, fresh turkey meat min. 5%), oils and fats (salmon oil 0.5%), vegetables, fish and fish derivatives, minerals, Yeasts (mannan-oligosaccharides M.O.S. 500 mg/kg), Fructooligosaccharides F.O.S. 500 mg/kg, Yucca Schidigera 1,000 mg/kg.
